Freelance
11/2022 - Present
Doing various tasks ranging from front-end to back-end. On various frameworks or even on native JS.

CERTIFICATES

SkillUp Javascript/React Developer (08/2022 - Present)

PERSONAL PROJECTS

Beer shop (11/2022 - Present)
- Latest project - a website for a beer shop. My assignments: Log in/ Sign up page (front end and back end), basket (worked with databases), ability to purchase beer. In this project were used: React , Node , Express, Sequelize, MariaDB, Redux. My role in a team was a full stack developer and I wish to keep growing in this direction.
